

Longboat Hall Technical Information Sheet

Office: 416.792.1268

Production Manager: Mark Foster | mark@thegreathall.ca

Venue Administration Manager: Kasandra Lippens | kasandra@thegreathall.ca

House Technician: Henry Beckwith | henry@thegreathall.ca

Loading: Trailers and trucks load in to side door entrance on Dovercourt road leading into both upper and lower venue spaces. Elevator is available (arranged with advancement of event) for loading equipment to main and lower halls. No front entrance loading in/out is permitted, and no rear alley loading is permitted after 11:00pm any day. All loading is done under supervision of The Great Hall. There is no on-site parking; street parking and private lot parking are the responsibility of the event organizers.

Sound Level Limits: The Great Hall has a sound level limit which is measured at FOH positions in all venue spaces, 105dBa. Due to the ambiguity of Toronto by-laws, this level is approximate, and the actual sound level limit on any given day will be at the sole discretion of The Great Hall's management and house sound engineer. Toronto by-laws place restrictions on levels outside of the venue, not inside. Management will monitor outside sound levels. Technicians shall not exceed limits both in accordance with The Great Hall's noise control plan, and at the risk of damaging any in house equipment.

Back Stage: Longboat Hall offers 1 dressing room with private washroom with direct stage access.

INVENTORY

Audio:

MODEL	DESCRIPTION	QUANTITY
PA:
